

American Institute of Integrated Thought (AIIT) is an independent research initiative, based on 'Integrated Thought' towards achieving holistic development.

Exploring the interplay between Signs & Technology, Science & Religion, with an integrated focus grounded in Revelation. Engaging human potential through divine guidance towards a synergy of ethical values and intellectual illumination.

Vision:

That current scientific and technological practices are integrated back into the timeless universal tradition as imagined in the Revelation.

Mission:

To cultivate young researchers with discernment, analytical & research skills, along with technological literacy and monotheistic philosophical foundation as a preparation for today's global challenges.

Volume I, Issue I

August 2025

American Institute of Integrated Thought

A group of Bangladeshi students has won the NASA Space Apps Championship! The team visited NASA Center for award and recognition. On June 04, 2025, AIIT organized a reception

2025 Theme:
**Promote Truth,
Refute Falsehood**

STEAM Event

AIIT Focus Areas

- Integrated Education
- Emerging Technologies
- Truth Matters
- Youth Empowerment

ICNA 2024, AIIT organized a seminar session at 2024 ICNA Convention, titled '**Navigating Faith through AI**' among the panelists were: Dr. Arafat Khan, Dr. Abur Rahman Hejazi, Dr. Hafiz Rahman, Dr. Enayetur Raheem, Dr. Farid Ahmad

Integration

International Workshop on Multi-faith Dialogue (ICMD 2025), in Dhaka Bangladesh

Integration of Islamic thoughts in contemporary education system
 Reconciling the great Divide— Science & Signs, Reason & Belief
 Integrated Teaching/Training
 STEAM Education – Organic mix of spiritual and contemporary education
 Integration of Islamic and Scientific Research
 Methodology, Reason and Revelation
 Supplementary Education

Premise

Research Skill Deficiency:

In the contemporary world, identifying with a prevailing theory or belief is prioritized over solid grounding in foundational research skills in our education. This is a major factor to the dogmatic zeitgeist of today.

Technology Misuse:

Emerging technologies have changed the way we do things. Ethical and re-

sponsible use of appropriate technology is vital for global harmony and scientific discovery.

Lack of Integration:

The current discrepancy in our education leads to the segregation of reason from revelation, man from his own essence and needs. What is left is man isolated with his own anxieties and impulses, unequipped with the necessary skillset to navigate through life.

Dr. Iqbal Unus, a lifelong pioneer Islamic Scholar of North America, visited AIIT booth during ICAN Convention 2025, at Baltimore, Maryland, Dr. Farid Ahmad, the president of AIIT was briefing Dr. Iqbal Unus on AIIT activities.

AIIT team at 2023 MUNA Convention, Philadelphia, PA

AI & Faith

AIIT Seminars

At ISNA, ICNA, and MUNA in 2024

AIIT offered engaging and motivational awareness and applied sessions in the general area of intersection of emerging applications of AI and Faith

ISNA Convention, 2024, on August 31st

MUNA Convention, 2024, on August 10

ICNA Convention, 2024, on May 25th
